

Mandatory quarantines!!!!

For international travellers kicks in Wednesday March 25th midnight tonight!! The government has been pleading with Canadians to self-isolate if they've returned from a trip since mid-March, but this move under the Quarantine Act makes it a legal obligation. More detailed information on quarantine enforcement is coming later today!!

""Message from our own Dr. Kelland"":

""I cannot be strong enough in my advising the Village to act on this immediately-with signage, consultation with the grocery stores and informing the general populous to help out their neighbours with purchasing groceries etc. We are all in this together. Diana""!

As per Dr. Kelland's message we require the WHOLE COMMUNITY to come together and not just put the onus on the Village who are "all doing their best" and are also short staffed to inform the public, we need YOU ALL to HELP with the MESSAGING!!! Please share also to shut ins and ones who do not have access to social media!!

Our front-line workers need to stay as healthy as possible; they risk their lives daily, we don't need to compromise them. One of them may save our lives. "Stay home."

Please continue to monitor the BC Centre for Disease Control website on COVID-19 for updates, information, and resources on best practices: www.bccdc.ca/covid19. also visit <https://news.interiorhealth.ca/covid-19/>

Sincerely

Tom Zeleznik, Mayor
